July 2007 Early Time Dynamics Montreal

Early Time Dynamics in Heavy Ion Collisions

July 16th-19th, 2007

McGill University, Montréal, Canada

Physics Topics

- ◆ Penetrating probes
- ◆ Jet production and jet quenching
- ◆ Heavy quark production
- ◆ Small-x, saturation and the Color Glass Condensate
- ◆ Formation of pre-thermalization stage
- ◆ Collective phenomena in pre-thermalization stages
- ◆ High- p_T collective phenomena

Organizers

Jean Barrette, McGill
Steffen Bass, Duke
Brian Cole, Columbia
Charles Gale, McGill
Sangyong Jeon, McGill
Ágnes Mócsy, BNL
Guy Moore, McGill
Joerg Ruppert, McGill
Michael Strickland, FIAS Frankfurt
